DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. **Claim 1-2, 6-9 (method¹), 10-14 (system¹), 15 (software¹), 18-19, 20-21, 25 (method²) are rejected under 35 U.S.C. 102(a) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over WEINSTEIN et al (Us 2001/0026609).**

As for independent method claims 1, 20, WEINSTEIN et al discloses in a communication network-based system, a method for administering an on-line fundraising event comprising:

- (a) maintaining a web site (page) accessible by network users:
- (b) hosting an on-line fund-raising auction of goods or services in the name of fundraising entity, the goods or services not owned or provided by the fund-raising entity;

Art Unit: 3629

(c) auctioning the goods or services to users visiting the web sites;

(d) receiving payment from a user successfully bidding on a good or service for auction; and

(e) allocating a portion of payment to the fund-raising entity

{see [0025, 0026, 0120, 0121], Figs. 22-23}. Alternatively, the minor adjustment of well known fundraising operating parameters/variables such as type of good/service, portion of payment, etc., is within the skilled of the artisan and would have been obvious.

As for dep. claims 2 or 21, this is shown on Fig. 22.

As for dep. claims 6-7, 25, these are taught in [0008, 0025-0026].

As for dep. claim 8, this is shown in Fig. 22.

As for dep. claim 9, this is shown in [0026].

As for indep. system claim 10, which is to carry out the method of claim 1, it's rejected for the same reason set forth in claim 1 above.

As for dep. 11-14 (part of 10), which have similar limitations as in dep. claims 2, 6-7, 9, respectively, they are rejected for the same reasons set forth in dep. claims 2, 6-7, 9 above.

As for indep. Software program of claim 15, which is to carry out the method of claim 1, it's rejected for the same reason set forth in claim 1 above.

As for dep. 18-19 (part of 15), which have similar limitations as in dep. claims 6, 9, respectively, they are rejected for the same reasons set forth in dep. claims 6, 9 above.

Art Unit: 3629

4. Claims 3-5, 16-17 and 22-24 rejected under 35 U.S.C. 103(a) as being unpatentable over WEINSTEIN et al as applied to claims 1-2, 6-9, 10-14, 15, 18-19, 20-21 above, and further in view of CA 2,254,378.

As for dep. claims 3, 16, 22, with respect to rebate as indicated in these dep. claims, CA 2,254,378 is cited to teach well known incentive to good will donor by donating the rebate amount from merchant to charity (see abstract). It would have been obvious to modify WEINSTEIN et al by further including additional motivation to donor by giving the rebate amount from a transaction to charity as taught by CA 2,254,378 above.

As for dep. claims 4-5, 17, 23-24 which deals with further minor limitations with fundraising campaign operating parameters/variables with respect to the rebate, these are routine experimentations and within the skilled artisan to adjust these parameters/variables for specific events or needs, absent evidence of unexpected results.
